## LACROSE | Whitening Body Milk | 500 ml

Body milk is a care product that is useful for restoring lost body moisture and balancing body moisture levels. It helps to keep our body moist and gives it a smoother and brighter appearance. Not only for dry skin, but also for oily, combination and other skin types, the moisture content is different. Therefore, you can choose our body milk, suitable for all skin types, to balance the moisture content in our body. The use of body milk after bathing balances the moisture of the skin, which dries out under the action of hot water, so it relaxes our body and gives a feeling of peace.
